

# MANHOLE DOUBLE ACCESSORIES

## TECHNICAL SPECIFICACION

Manhole double cleaning door to improve water protection. It allows access to the interior of the silo for cleaning and inspection.

It is composed of an inner and an outer sheet

It is installed on a bodysheet, on which the hole must be made, screwed onto a hinged frame.

Internal slope design, improves free flow discharge and avoiding dust concentration.

## PARTS AND MATERIALS

- 1 ACCESS DOOR**
  - Made up of two sheets, exterior and interior, screwed to a frame
  - Size: 484 x 484 mm
  - MATERIALS: Galvanized steel S275JR HDG
- 2 BODYSHEET**
  - Development: 2400 x 1140 mm
  - Material: S350GD Z600
